Property Owner: Retain Permit Number for your records

Attention Applicant! The Department will not conduct this inspection if there are unrestrained animals on the premises. Failure to comply with this requirement may result in additional inspection service fees and delay in service.

DO NOT POST THIS PAGE AT THE WORKSITE

You must request inspection prior to covering any electrical work, no later than three business days after completing the work or one business day after any part of the installation has been energized, whichever occurs first.

Failure to request an inspection of the work may result in civil penalties.

We get to most inspections within 48 hours of the date of the request. However, due to staffing levels, it may take longer, especially if you are in a remote area.

SAVE TIME AND MONEY BY MAKING YOUR INSPECTION REQUESTS ONLINE

This is your permit number: **3961348P**

Use this authorization code: **47845**

Please provide a description of what you want us to inspect, how to find it, and instructions that allow the inspector to gain access to make the inspection.

Inspectors do not call unless requested in the comments section. Instruct them what to do to gain access.

Additional fees will be assessed if the inspector is not able to locate or access your installation.

After completing the request information:Select **Submit Request** for your request to be recorded
